

2-4 players, Ages 5+

Feeding Frenzy

Object of the game:

Catch the most fish by the end of the game!

Before you begin:

Each player selects a Piranha. Spread all of the little Fish in the middle of table (“the water”) and mix them around.

Playing the game:

The game is played in different attack rounds. The youngest player starts the first attack by rolling the die. Using their piranhas, all players at the same time rush to catch the most fish of the color shown on the die.

When the die shows 2 colors (red & blue or silver & green) the players may catch fish in these 2 colors but will only score on one color.

The attack ends when there are no more fish of the color(s) indicated by the die. The players open their Piranha’s mouth and take out all of the fish.

- Players who caught fish in the wrong color(s) lose a turn and cannot play in the next attack.
- The player who caught the most fish that match the color on the die wins that round and keeps the fish in a pile near him/her.
- All other players return all the fish they caught in that round back into the water.
- If there are 2 winners in a round, both keep their fish. If more than 2 players win a round, all the players’ fish must go back into the water.

Yellow Fish:

If the rolled die indicates a color of fish that is no longer in the water, all the players try to catch the yellow fish. The lucky player who catches it wins 1 colored fish from each of the other players!

The yellow fish is always returned to the water after each attack. If players catch the yellow fish during the game, they lose all the fish they have won in the entire game!

Before each attack, mix all the fish in the water. The game ends when the last colored fish is “eaten” and only the yellow fish is left.

Winning the game:

The player with the most fish at the end of the game wins!

Contents:

Game rules

1 Color die

4 Piranhas – red, green, blue, silver

33 Fishes – 8 red, 8 green, 8 blue, 8 silver, 1 yellow
