

# Marble Mania 3D

BE THE FIRST TO REACH THE FINISH LINE – BY CLIMBING RICKETY LADDERS  
AND AVOIDING SLIPPERY SLIDES !

For 2-4 players • Ages 4 & up

Contents: 1 3-D game board  
4 colored marbles  
Number die

## To Play:

Choose a colored marble and place on the start circle. On your turn, roll the die and move your marble the number of spaces indicated.

If you land on a space that is the bottom of a green ladder, you can climb it to get ahead! Carefully place your marble onto the bottom of the ladder. Maneuver the ladder to get your marble onto the open circle on the other end. If your marble falls off, you are out of luck. You must go back to start.

If you land on a space that is the top of an orange slide, bad luck for you! Place your marble at the top and maneuver the slide until your marble reaches the open circle at the bottom. If you fail to get your marble there, you have to return it all the way to the start of the game!

Some slides and ladders have an extra challenge – you must launch your marble onto them!

## The purple gear:

When your marble lands on one of the spaces with an arrow which surround the purple gear, you place your marble onto the gear and spin it. Wherever the gear stops is where you place your marble. When the marble is not next to an arrow space when the gear stops, your marble is placed on one of the lower arrow spaces, below the gear.

## Winning the game:

The first player to successfully get their marble to the house at the end of the board is the winner!
