Contents: 28 Dalmatian Dominoes

Dalmatian Dominoes is a game for 2-4 players, using 28 dominoes.

Before you begin:

Place the 28 dominoes on the table and mix them up well. Each player now draws his/her dominoes. If there are 2 players, each player gets 7 dominoes. If there are 3 or 4 players, each player gets 5 dominoes. Place the remaining dominoes in a pile, which players will draw from. The player who draws the domino with the highest number starts the game. Play continues in a clockwise direction.

Playing the game:

The first player lays one domino on the table. The next player must add another domino to either end of the domino played, by matching its number. If the player does not have a domino that matches, he/she draws a domino from the draw pile. However, this domino cannot be used on this turn. It is the next player's turn. Play continues, with players laying down matching dominoes or drawing them. When the draw pile is depleted, players continue to take turns, trying to get rid of all their dominoes.

Playing a double:

If you have a double domino you can play, you should lay it out by centering it as shown. The next player to lay down a domino on this end, must also center it.

Winning the game:

The first player to get rid of all his/her dominoes is the winner!
