

PICK UP THE Pizza

Make it! Bake it! Take it!

For 2 or more players, ages 4 & up

Contents: 10 Pizza Crust Cards
30 Pizza Topping Cards:
10 Peppers
10 Mushrooms
10 Pepperoni
10 Pizza Box Covers
2 Order Mix-up cards
2 Pizza thief Cards

Object of the game:

To pick up the most completed pizzas

Before you begin:

All cards are round, but some have slices missing! Shuffle them all together and deal out 4 to each player. Place the remaining cards in the middle of the table to be used as the draw pile.

Playing the game:

The player who likes pizza best begins the game by drawing a card and then placing a Pizza Crust card down on the table. If he/she does not have a pizza crust card, then he/she discards one card facedown. This card is out of the game.

It is the next player's turn.

No one can make any other move until there is at least one Pizza Crust card on the table. If the first player did not put a pizza crust card down, the next player must do so, or else he/she must also discard one card and it is the next player's turn.

Once there is a Pizza Crust card on the table, on their next turns, players can:

1. Place a Pizza Topping card (Peppers, Mushroom or Pepperoni) on top of a Pizza Crust card. Three toppings are put on a pizza, but there can only be one of each kind of topping. So, if another player has already laid, for instance, a Mushroom card on a Pizza Crust, you cannot add another.
2. Place another Pizza Crust Card down on the table. However, there can only be 4 Pizza Crust Cards on the table at the same time.

Playing a Pizza Box Cover card:

When there are 4 cards in a Pizza Pile (a Pizza Crust card and 3 Pizza Toppings cards), the pizza is ready to be claimed. In order to claim a pizza, a player must cover the pizza with a Pizza Box Cover card. If, on your turn, you see that there is a Pizza on the table that has 3 toppings on it, and you have a Pizza Box Cover card in your hand, you lay the card on top of the pile and take the entire pizza!

- You always hold 4 cards in your hand and draw a card at the beginning of your hand. On your turn you either play a card or discard a card. If you have a card in your hand that can be played, you **MUST** play it. You only discard a card when there is no card in your hand that is playable.
- When laying down cards, be careful what toppings you play. If you lay the 3rd topping down on a pizza, then another player may claim it with their Pizza Box Cover card.
- When the draw pile is depleted, shuffle the discarded cards, place them facedown and use these as a draw pile.

Order Mix-Up Cards:

There are 2 of these cards in the deck. When you have one of these cards in your hand, you can play it to prevent another player from winning a pizza. When another player lays down a Pizza Box Cover card, to claim a pizza, you can play this "Order Mix-Up Card". You can then claim the pizza, taking it away from the other player. The Order Mix-up card is then taken out of the game (do not add to the discard pile).

Pizza Thief Cards:

There are 2 of these cards in the deck. When you have one of these cards in your hand, you can play it on any of your turns. Show the rest of the players your card and then take a completed pizza away from any player who has already claimed one. The Pizza Thief card is then taken out of the game (do not add to the discard pile).

Any time you play one of these cards, at the end of your turn, draw a card from the draw pile, so you have 4 cards in your hand.

Winning the Game:

When all the cards are used, the player who has claimed the most pizzas wins!
